Skokanová K., Šingliarová B., Španiel S., Mereďa Jr. P., Mártonfiová L. & Zozomová-Lihová J. (2022) Relative DNA content differences reliably identify *Solidago* ×*niederederi*, a hybrid between native and invasive alien species. – Preslia 94: 183–213.

Supplementary Table S1. – GenBank accessions numbers for ITS and *rpS15-ycf1* sequences of the *Solidago* plants analysed. Taxa codes: C – *S. canadensis*; G – *S. gigantea*; N – *S.* ×*niederederi* (Nv – non-flowering individuals of *S.* ×*niederederi*); V – *S. virgaurea*; I_C, I_N – supposed introgressants of *S. canadensis* and *S.* ×*niederederi* (see Results). For population codes, see Table 1.
