Lozada-Gobilard S., Pánková H. & Münzbergová Z. (2023) Interactive effects of light, water, soil type and competition on the endangered *Minuartia smejkalii* vary over time. – Preslia 95: 165–183.

Supplementary Fig. S3. – Soil and air temperature and moisture variation by year during the experiment. Soil temperature (A), air temperature at 15 cm height (B) and soil moisture (C) was measured. All variables were measured on 15-minute resolution using TMS data-loggers (Wild et al. 2019).
