

Škornik S. & Pipenbaher N. (2025) Patterns in clonal traits in semi-dry calcareous grasslands in Slovenia. – *Preslia* 97: 567–588.

Supplementary Fig. S9. Slovenian semi-dry grasslands (*Onobrychido-Brometum* association) are an important habitat for many orchid species (*Anacamptis pyramidalis* shown), which can form populations with a high abundance and density (photo: N. Pipenbaher).
